

Del Vel Chem Company | 250 Old Marlton Pike | Medford, New Jersey 08055 | 609-714-2424

---

Del Vel has been a distributor for Greenovative Technologies since May 2011. Working with septic installers and pumpers is a large part of our business, so EcoHancer is a perfect fit for us. In the past, we have sold harsh chemicals to maintain septic systems, but EcoHancer is a cost-effective, efficient, and environmentally-friendly alternative. Our customers like the product and have seen numerous positive results, including improved septic system efficiency, improved drain field performance, reduced odor, and reduced sludge buildup.

Red Lion Diner was one of the first projects that we used EcoHancer on. Before using the product, their septic system was in very bad shape and had massive system failure, odor, and a flooded drain field. After 9 weeks, the system completely turned around with improved efficiency, reduced odor, and a clear, dry drain field.

A handwritten signature in black ink, appearing to read 'Steve Pollack', is positioned above the printed name.
